Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3611

1. Applicant's election without traverse of species IV (fig. 3) in the reply filed on 8/12/04 is acknowledged. In a communication filed 7/28/03, applicant elected the species shown in fig. 2. It is noted that the election of 8/12/04 supersedes the election of 7/28/03. Moreover, it is noted that applicant did not indicate which claims read on the elected species. This was specifically required in the election requirement of 11/4/02. Nevertheless, since this is a pro se applicant, and to avoid further delay in the examination of this application, the examiner has determined that claims 1, 2, 4-6, 11 and 13-20 read on the elected species IV (fig. 3).

2. Claims 3, 7-10 and 12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 8/12/04. It is noted that claim 12 would be rejoined upon allowance of the application, since it depends from allowable claim 11.

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the ski and float (claim 18) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the

Art Unit: 3611

renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hollingsworth.

Hollingsworth teaches a device having the structure as claimed. The device includes a linkage (24/31, etc.) for moving the handlebars relative to the main frame responsive to movement of the front wheel. The rod 27 is considered to be a double ended link, as broadly recited in claim 5.

6. Claims 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 11 and 13-20 are allowed.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kawaguchi, Clement, Gogo, Roerig, Girvin, Gally, Clausen and Ogura disclose various devices having features in common with the instant invention.
